

PROFILE

I am a person that likes solving problems, not all the time you will have the ideal conditions to fix a problem, so I adapt to the circumstances and changes. I try to find solutions and I like to share how to fix a problem.

Throughout my career I have learned that it is most important to find solutions and make teamwork than keep the knowledge for myself.

The best you can share to the other is the knowledge.

BIRTHDAY

September 7, 1984.

ADDRESS

Victoria #560, Villas Terranova, Tlajomulco.
